

Process Indicators with Respective Diagnoses

Process Indicator	Children with diagnosis of malaria	Children with diagnosis of pneumonia	Children with diagnosis of diarrhea/dehydration
Child's weight documented	√	√	√
Child's temperature documented	√	√	√
Vitamin A Administered on Admission	√	√	√
Provider Initiated HIV testing	√	√	√
Vaccination status documented	√	√	√
Average assessment score(range, 0-1)	√	√	√
Proportion of malaria with a severity classification	√		
Proportion with quinine loading dose	√		
Proportion with twice daily quinine maintenance dose	√		
Proportion with quinine daily dose $\geq 40\text{mg/kg}$	√		
Proportion of pneumonia with a severity classification		√	
Proportion with once daily gentamicin dose		√	
Proportion with gentamicin daily dose $< 4\text{mg/kg}$		√	
Proportion with gentamicin daily dose $\geq 10\text{mg/kg}$		√	
Proportion of diarrhoea/dehydration diagnosis with a severity classification			√
Correct fluid prescription			√
