In the originally published version of this manuscript, there were several minor errors.

The title read 'mo' instead of 'months'. The full, correct title is: 'The management of moderate acute malnutrition in children aged 6-59 months in low- and middle-income countries: a systematic review and meta-analysis'.

The captions of Figures 2, 3, and 4 had errors in the descriptions of D + L and M-H. The corrected text in all three captions should read: D + L, DerSimonian and Laird random effects estimates; M-H, Mantel-Haenszel fixed effects estimates.

These errors have been corrected.
